10,000 Jap Troops Die At Imphal

Exclusive to The Edmonton Bulletin
Copyright, 1944, by British United Press
ALLIED HEADQUARTERS, CEYLON, April 25.—Almost 10,000 crack Japanese jungle troops have been killed in the month-old battle for Imphal, an Allied observer reported today as counter-attacking British and Indian forces broke open the northern arc of the enemy siege lines around the Manipur state capital.

The British defenders of Imphal were estimated to have slain at least 4,000 enemy troops in a series of pitched battles along the approaches to the city since the invaders opened their assault late last month.

In addition, the observer estimated that as many more of the enemy died under Allied artillery fire and aerial attack—presumably in rear areas where the bodies could be buried or removed by their comrades.

Meanwhile, Allied headquarters revealed that strong British and Indian armored forces were driving

LONDON, April 25.—Strong forces of American heavy bombers, carrying the pre-invasion assault of Axis Europe through its ninth straight day, bombed targets from the French coast to southwestern Germany today in the wake of an R.A.F.-C.A.F. attack that dropped 500,000 incendiaries in the greatest fire raid of the war.

Three big German air fields in northeastern France and the Pas de Calais channel coast felt the weight of an American attack of more than 1,000 bombers and fighters. Tonight it was announced that heavy bombers also penetrated to southwestern Germany and bombed industrial targets. Seven bombers and two fighters are missing.

The R.A.F.-C.A.F. fire raid

Church Is Razed
At Peace River

Exclusive to The Edmonton Bulletin
PEACE RIVER, April 25.—Fire of undetermined origin, but probably caused by a short circuit, completely destroyed the Church of the Immaculate Conception on Monday. Smoke was first seen coming out of the peak of the roof. The alarm was turned in, but within one hour the building was in complete flames as the blaze was fanned by a high south wind which enabled flames to save the structure only a few feet south of the church. The loss was partly covered by insurance. So far did the flames spread that only a few articles of furniture were removed from the church. Heated oil painting of the late Bishop Gordon had a considerable value, went with the flames.

Actual loss is believed to be well over \$10,000. The church had been recently been freed of debt, and considerable new furnishings had been installed, as well as renovation.

Canadians Down
Two Nazi Planes

LONDON, April 25.—(CP)—Two Messerschmitt 110s were shot down near Laon in Northern France late yesterday by three Canadian Spitfire pilots on an offensive sweep.

P.O. T. W. O. Doolittle, who shot down one, and P.O. D. G. Ashleigh, towed one, and P.O. R. K. Hayward, shot down the other, were mentioned in second victory. The sweep was led by Sqdn. Ldr. L. W. Cameron, British Bomber Command.

By Red Army

Attack Renewed
in Sevastopol

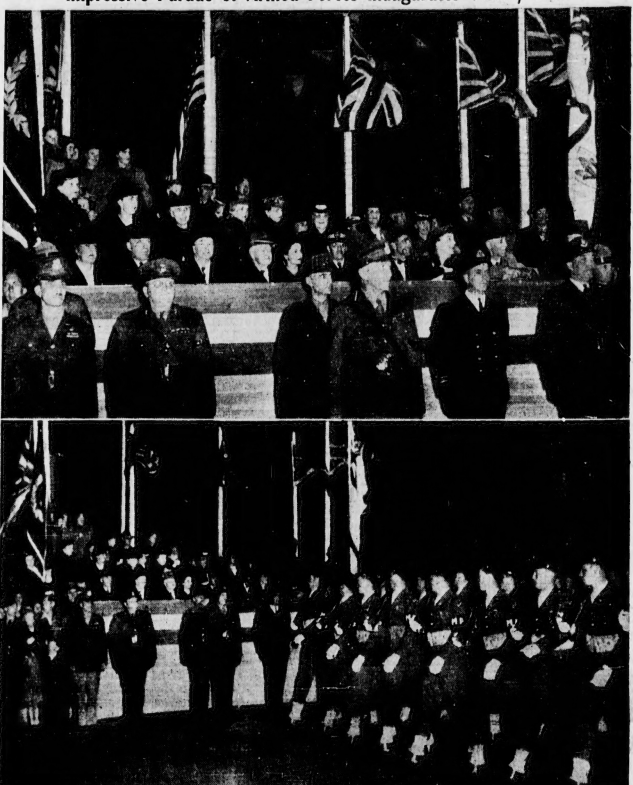

By HARRISON SALLSBURY
Exclusive to The Edmonton Bulletin
Copyright, 1944, by British United Press
MOSCOW, April 25.—Russian siege armies and assault planes were reported pouring torrents of shells and bombs down Sevastopol town in apparent preparation for the showdown battle of the Black sea naval base.

Powerful squadrons of the Red air force and the fleet air arm were everything they had at Sevastopol and the sea lanes of the beleaguered German and Romanian ports.

German and Romanian planes sinking 15 vessels and destroying 36 planes in 24 hours.

Impressive Parade of Armed Forces Inaugurates Victory Loan

Premier Reviews New Legislation

An outline of legislation still to be introduced by the government at the present session of the House was given to the Commons, Monday, by Prime Minister King. Aside from the planned program Mr. King said other measures, based on committee reports, may be forthcoming.

War Services Minister LaFlèche announced the government would spend \$1,162,000 this year to provide courses through the Canadian Legion for educational services to members of the armed forces and Canadian prisoners.

Complete reports appear on page 2.

Reinforcements Reaching Anzio

LONDON, April 25.—(CP)—The German-controlled Vichy radio reported today "fresh British and American troops continue to pour into the Anzio beach-head" in Italy. It added: "These new reinforcements are now being carried on ceaselessly, while the preparatory full continues."

Reveal Atrocities

MOSCOW, April 25.—(CP)—A commission set up here to investigate German atrocities against Czechoslovakian people reported yesterday that 374 inhabitants of the Czech settlement of Cesky Malin in the Ruzov district of Poland were burned to death by the Germans to punish the population for collaborating with guerrilla bands.

Here are scenes of Edmonton's Victory Loan parade Monday night which was voted the best in the history of the city.

Approximately 60,000 persons thronged the route of the parade as 15,500 military personnel of the Canadian and American forces, Veterans of the Great War of 1914-1918, Sea, Air and Army Cadets, and others marched past. At top in the foreground is Maj.-Gen. W. W. Foster, C.M.G., D.S.O., V.D., special commissioner for defence projects in Northwest Canada, taking the salute at 101 street and Jasper avenue. Immediately behind him, reading left to right, are: Col. Harold H. Carr, representative Brig.-Gen. David V. Gaffney, commanding officer of the Alaskan Wing, Air Transport Command, U.S.A.A.F.; Lt.-Col. E. Brown, M.M., E.D., Edmonton area commander; Maj. A. C. Nixon, aide to Major General Foster; Lt.-Col. J. A. Dawson, officer commanding H.M.C.S. Nonouch, and Group Captain R. M. Smith, officer commanding No. 3 "M" Depot, R.C.A.F. Below is a detachment of the United States military police, who headed the American contingent in the parade, giving the salute, and underneath is the Royal Canadian Navy detachment passing the saluting base. Marching with the navy unit is Douglas Richards, six years old, mascot of the detachment. (See story on Page 1.)

Reveal Occupation Of Small But Vital Island in Aleutians

HEADQUARTERS, ALASKAN DEPARTMENT, April 25.—(AP)—Occupation and fortification of Semya, small but important island in the far western Aleutians, was revealed here Monday.

Troops went ashore in a storm landing on the island in May, 1943. They were picked men from the famed 4th Infantry Regiment which captured Lion mountain in Chicago territory at the close of the Alti battle.

Gibson Clarifies Earlier Statement On Tax Payments

OTTAWA, April 25.—(CP)—Revenue Minister Gibson, clarifying a previous statement on income tax payments, said today in the Commons that taxpayers, estimating payments on a quarterly instalment basis, will be granted until Aug. 31 to meet their tax bill. The previous deadline was April 30.

R.A.F. Intensifies Mine Operations in Baltic Area

LONDON, April 25.—(CP)—News from Sweden yesterday that R.A.F. aircraft were intensifying their mine laying operations in the Baltic follows Britain's admission it has been necessary to trouble the German mine-sweeping in the English Channel and the Bay of Biscay. Doctor Hans Reihardt, naval correspondent of the German D.N.B. agency, described the mine-laying as "a preliminary phase of decisive operations."

Crash Kills 12 Persons

MONTREAL, April 25.—(CP)—At least 12 persons, including a baby, were killed, when a four motored Liberator bomber crashed this morning into a number of old brick dwellings in downtown Montreal.

The bomber, operated by the Royal Air Force Transport Command, had just taken off for the United Kingdom.

Its entire crew of five, the only persons on board, were among the killed.

The name "Poland" was on the charred uniform of one of the victims and it was believed that at least three of the crew were Polish. Names are withheld until next-kill have been notified.

The whole area of the downtown crash was thrown into a scene of horror as the great ship flattened several buildings into ruins and crushed their inmates into shapeless bodies which were soon charred by flames.

Men, women and children ran about the streets hunting for their families. One woman screamed that she had lost two daughters. Finally women and girls, some shocked into silence and others in a state of hysteria, were taken to a nearby school for care.

The wrecked group of some 14 dwellings is located in a block bounded by Shannon, St. Colborne and Ottawa streets, near the Canadian National Railway's old Boulevard station. Three of them were flattened into debris and the others badly damaged.

It is believed that the bomber, operated by the Royal Air Force Transport Command, carried a crew of five, but as several ships were badly damaged.

\$74,276 15 Bonds Sold Opening Day

OTTAWA, April 25.—(CP)—Canadians subscribed a first-day total of \$74,276.15 in Sixth Victory Loan bonds yesterday, \$6,000,000 in excess of the target day in the Fifth campaign, the National War Finance Committee announced today.

Fit-Lt. Clarke

Edmonton Flier Believed Killed In 'Chute Leap

LONDON, April 25.—(CP)—Fit-Lt. Ben Clarke of 7823 Jaspier Av., Edmonton, commander of one of the R.A.F.'s highest jumper fighter squadrons based in Italy, is reported missing, believed dead, after falling out of his crippled Spitfire over Yugoslavia.

News reaching London said Fit-Lt. Clarke was returning to his base from a troop-lifting sortie April 2 when his plane got into difficulties. He was ejected from the parachute on the plane and when he finally shook free and plummeted down, the chute failed to open.

The towering Edmonton pilot, whose lookout showed two enemy planes destroyed, had later engaged in strafing German road and rail transport troop concentrations in Italy and Yugoslavia. On one of the missions he was shot down.

High Nazi Injured

NEW YORK, April 25.—(AP)—The Nazi foreign office spokesman, Dr. Paul Schmidt, has been "severely" injured in a motor car accident, but his condition is improving, a Berlin radio broadcast reported by U.S. government monitors said yesterday.

Patriots Executed

LONDON, April 25.—(CP)—Eight more Netherlands patriots have been sentenced to death and executed by German authorities in occupied Holland. It was learned here yesterday. The eight were accused of killing police.

Britain Bans Travel

LONDON, April 25.—(CP)—Tightening the web about this western front invasion base, the government last night banned travel to overseas destinations "except for business of urgent national importance which cannot be postponed."

The home office announced the ban, to run indefinitely, "for military reasons." Persons who are holding exit permits will be allowed to use them until midnight April 27. Then the issuance of permits will stop for all not coming under the "urgent" classifications and no permits will be valid unless it was issued on or after April 19.

The action followed recent suspension of travel to Eire and a clampdown on the movement of diplomats.

For First Day

Victory Loan Sales in City Total \$149,850

Subscriptions in the general canvass and payroll savings section to the Sixth Victory Loan in Edmonton on Monday amounted to \$149,850, equivalent to 2.9 per cent of the city's population of 53,000,000, announced Tuesday by loan headquarters officials. The number of purchasers was given as 378.

This compares with purchases amounting to \$138,200, when 21 per cent of the quota was reached.

First returns from the rural districts indicated that residents there were selling behind the loan. Subscriptions on Monday reported amounted to \$270,000 with 1,022 persons participating compared with \$161,550 in the Fifth Victory Loan when 460 rural residents bought bonds. The rural purchases in the present sale of \$3 per cent of the \$45,850,000 set.

Continued on Page 2, Col. 6

Alberta Reaches

8.7% of Quota

Total subscriptions in Alberta to the Sixth Victory Loan Monday from the special names division of the loan canvass amounted to \$1,485,000 with 26 subscribers participating, announced by the M. E. Evans, vice-chairman of the Alberta National War Finance Committee.

This gives an overall total of subscriptions to the loan in the province of \$3,200,250 which is 8.7 per cent of the minimum objective of the \$37,000,000 set for the province. The total number of applications on Monday was 481.

In the Fifth Victory Loan the total subscriptions on the opening day amounted to \$1,915,800 with 4,194 applications being received to give a 5.3 per cent of the quota for that loan which is the same as in the present campaign.

Soviet Forces Renew Assault On Sevastopol

Continued from Page One

Red army counter-attacks between the frontiers and the city, indicating that the Russians had begun the initiative in the south-east corner of pre-war Poland.

RED PLANES ACTIVE

Russian battleplanes have been dropping unrelentingly active in the major zones of operation at Sevastopol and over the Lower Stanislav area where the Nazis persisted in efforts to hamstring Marshal Georgy K. Zhukov's preparations for a new campaign.

The northward advance of spring was drying out the southern front and melting the snows from the central and northern fronts, where German nervousness evidently reflected action that the Red army soon will be in action again.

Meanwhile the attempted evacuation of Sevastopol continued under a hail of Soviet bombs and thrusts by the Black Sea fleet.

Nine of the vessels sent to the bottom were transported loaded to capacity with German troops attempting to escape across the Black Sea.

Three patrol boats, two landing barges and a torpedo boat were sunk and a number of smaller craft were damaged severely.

500,000 Fire Bombs Rained On Continent

Continued from Page One

scattered incendiaries across western Europe.

EXCEEDS ALL OTHERS

The number of incendiaries rained on the continent, according to the British and Canadian press, exceeded by 100,000 the count of those dropped on Berlin by the Royal Bomber Command on March 18 in the previous heaviest fire raid.

Heavily escorted Flying Fortresses and Liberators attacked Nancy, Metz and Dijon. The Berlin raid reported American bombers over southern Germany for the second straight day. Swiss dispatches said three Liberators were forced down in Switzerland by Stuka fighters.

Marauders and Havoc assault bombers attacked military targets in northern France. They were escorted by R.A.F. and Canadian Spitfires.

USE HEAVY FORCE

Some 800 to 1,000 R.A.F. and C.A.F. night bombers dropped the bulk of their 500,000 fire bombs and incendiaries on Karlsruhe and Munich, straddling the Rhine and the Danube, and divided the balance between Düsseldorf and Chambley, the latter a French railway depot 20 miles north of Paris.

French fighters were lost in all night operations.

Hardly had the last of the night raiders returned to their bases when an almost ceaseless procession of Allied day bombers, fighters and fighters began streaming across the English Channel and Straits of Dover to maintain the unparalleled pace of an offensive that has sent some 1,000 or more tons of bombs crashing down on western Europe in the past eight days and nights.

Watchers on the English Channel coast said the drone of aircraft overhead was almost continuous as waves after wave of Allied planes moved out toward France in daylight attack.

NAZIS RECOGNIZE

German planes contested themselves with armed reconnaissance flights over eastern and south-eastern England last night in attempts to spy out Allied invasion preparations. Bombs were dropped at one point, but caused no casualties.

The air ministry announced that the R.A.F. was over Germany last night in "very great strength" with first reports indicating that the main attacks on Karlsruhe and Munich were "well concentrated."

NEW YORK, April 25.—Puka Gin, the "mystery horse" which failed dimly in the biggest betting race on record, will be given another chance Saturday in the Chesapeake at Pimlico, M.D., before possibly being declared out of the Kentucky Derby.

Col. C. V. Whitney, owner, and trainer Andy Schuttlinger considered withdrawing the highly-garbed bay colt from the blue Grass classic immediately after he finished fourth in the first section of Saturday's Wood Memorial at Jamaica.

Whitney and Schuttlinger were stunned, as were most of the 41,412 fans who gave racing its first three-million-dollar day, by betting \$3,176,553 on the seven-year-old colt.

Puka Gin far day, by betting \$3,176,553 on the seven-year-old colt. He was stunned because the bay son of Fircroft was supposed to have more speed and stamina than any three-year-old. An early winter-broke favorite for the Derby, he went to the post for his section of the Wood Memorial on 5-5 favorite.

CAKE IN FOURTH
BUT his backers saw Sir Up, a speedy chestnut gelding, come home to victory. Still, Sir Up was not expected to win the race.

Whitney's agent, who saw Sir Up, said he was a "mystery horse" followed by A. A. Baroni's victory. And three lengths behind Alcott came Puka Gin.

Puka's poor showing led to a huddle among Colman Whitney, Schuttlinger and Jockey Ted Atkins. They were mystified.

They could find no alibi. The horse was fit. Still puzzled, they announced yesterday that they would give him another chance. Schuttlinger announced, "We can't understand it. He ran a dull race. But we'll ship him to Pimlico Wednesday, and if he shows well in the Chesapeake, he'll go in the Derby. If he's still dull, we'll withdraw him from the Derby."

Meanwhile, Sir Up became a heavy Derby favorite. His price was pared from 4-1 to 2-1 in the future book. This was far above George D. Widener's Lady Draw which won the second section of the Wood, and was given an 8-1 quotation. Doubtless their winning times were important in these price adjustments. Sir Up covered the mile and a sixteenth in 1:14.15, exactly two seconds faster than Lucky Draw's checking. Puka Gin's trial in the Chesapeake will be over the same distance, which is only slightly less than Derby's mile and a quarter.

STIR UP WILL BE IDLE
STIR UP, at peak form, will not run again until the Derby. Trainer John Gaver said he will be shipped to Churchill Downs today.

Despite Sir Up's showing and the withdrawal of competitors like Olympic Zenith, Red Reigh and Free Lance, they remain at least on thoroughbred that we give the Whitney gelding still competition in the Derby. We mean the Bontle stable's Challenge Me, which set a new track record for a mile and a sixteenth at Oaklawn and nearly equalled the track record for a mile and

Aided by Five 4-F Infielders Browns are Counting On Kramer, Jakucki

By HARRY GRAYSON
CHICAGO, April 25.—James Luther Sewell directs a large pitching staff in the uniform of the St. Louis Browns, but the question is quality. His best dealers of 1943 were Bob Muncrief, Denny Galehouse, Steve Sundra, Nelson Potter and George Carter. Muncrief has been accepted for service, but not report. Galehouse is staying on a war job. Sundra, 33, has passed his physical, but will be among those present until notified to join up.

Pitchers who have shown best are Sundra, A. Newman Shirley, Jack Kramer, Sigmund Jakucki and Weiden West. Shirley, tall right-hander, won seven and lost 11 for Springfield of the Eastern League, but that hardly makes him a natural.

Jakucki, 31, has been around, but has been out of organized ball since 1938. The reason was bad habits, which seem to have been corrected through age. Jakucki, 6-2, 180 and right-handed, has pitched for a Houston shipyard team and was in the army last season. Looks like a major league veteran. He has good stuff, appears to have courage, may be a pleasant surprise.

West, a southpaw, batted eight, dropped 10 for the first time. He led the Southern Association in strikeouts. Potter has been ill, but Luke Sewell believes he will have a fine season.

MANCUSO AND HAYWORTH
Kramer has a grand opportunity from coal at the rate of 10,000,000 barrels a year.

Before the war, Nat Germano was producing synthetic gasoline from coal at the rate of 10,000,000 barrels a year.

NO BETTER INFILDS—LUKE
The most formidable all-around infielder in the American League is a Yankee. There are few athletes of this vintage caliber in baseball now. The Browns' most pronounced strength is in their half dozen infielders, five of whom are 6-6—George McQuinn, Don Gutierrez, Stephens, Elia Clark and Floyd Baker. The one who is not 6-6 is Mark Christman.

Manager Sewell doubts that there is a superior infield in the game.

It is a question of how long outfielders who have been in the thick of things as long as Frank Bernare, Mike Kreevich and Steve Sundra can perform regularly. If the game is not too fast, these venerable gentlemen will take care of themselves with a few driblets. Other flycatchers are Harold Kopp, Milton Byrnes and Allen Zavilla.

Luke Sewell, an optimistic cuss, believes that if his pitching amounts to anything at all the Browns can finish well up in the first division.

Seven of Aces From Manitoba

QUEBEC, April 25.—CP.—There was a touch of irony last night as Port Arthur Shipbuilders, western Canadians, bowed out of the Allan cup finals and Quebec Aces brought the 36-year-old trophy to the city for the first time.

No one of Aces' 13 players used last night was born in the ancient capital and seven of the "eastern" winners, half from Manitoba, Bill McKay, half from Montreal.

Like the 36-year-old Aces, a continental defenseman, Doug Baldwin, 21, centre Bill Robinson 23, and winger Luke Adams, 20, are Winnipeggers, while defenseman Frank "Blitz" Stahan, 27, comes from Minnesota. Max, winger Eddie Brunette, 24, from St. Boniface, Man., and winger "Rockie" Rozsni, 27, from Brandon, Man.

Amazonian Indians were the first to discover and cultivate cocoa, an ingredient of the cocoa plant.

Giants Batting .292

Cards Only Baseball Club

Hitting Over .300 in Majors

NEW YORK, April 25.—(AP)—Pad and pencil addicts Monday discovered the St. Louis Cardinals are the only big league club hitting over .300, and that both major loops, as a whole, are far under the batting averages they amassed last season.

Bill Southworth's National League champs are banging the ball at a .306 clip in winning five straight. As compared with the .279 figure with which they led the league a year ago, New York Giants, too, have won five in a row, and the majors is re-armed with their .292 hitting men.

But over in the American League the surprising St. Louis Browns are still six wins in a row, are hitting only .239 as compared with their .245 of last season. Five American League clubs are hitting better than the Browns, and seven are far ahead of the Philadelphia Athletics, who are in second place in the win-loss standings in spite of a puny .177 mark with the Willow.

Quebec Declines To Get Excited Over Tasting Cup

QUEBEC, April 25.—CP.—It was a businesslike finale to the Allan cup series last night and Quebec Aces, who won the big silver trophy here for the first time, it was put up for competition in 1908, decided to get excited over their feat.

It was in the bag after that 15-4 defeat, we handed Port Arthur Shipbuilders, western Canadians, the Allan cup trophy here for the first time, it was put up for competition in 1908, decided to get excited over their feat.

Port Arthur's victory last night and the 9-6 score shows it was a better game. We had too much power all-around power—for them, though. They haven't the power there that we have here and a good league goes a long, long way towards conditioning a team for the Allan cup trial.

Only about 4,000 fans, smallest crowd of the series, saw last night's game and there was only a handful of spectators outside Quebec's door as the Aces charged into street circles.

Capt. Hugh O'Leary of Port Arthur, who had cleared his club's elimination after last Friday's game, said the Shipbuilders would leave today for Port Arthur and would stop off for a day at Toronto en route.

"Aces were far too strong," he said. "We did our best, but . . . There was little disappointment in Port Arthur's room and O'Leary said it was "because we saw the handwriting on the wall—as they wouldn't"—after Aces took us 6-1 in the opener and then jumped all over us in the second game."

Referee Selected For Army Finals

OTTAWA, April 25.—CP.—Capt. Jerry Goodman of Toronto, auxiliary services officer at Camp Borden, Ont., will be the referee-in-chief for the western and eastern finals as well as the Dominion finals of the Canadian army boxing championships, defence headquarters announced last night.

Capt. Goodman, once a referee in the National Hockey League, has been associated with boxing and various sports for many years.

It takes about five tons of coal to make a ton of synthetic gasoline.

What to Do With Germany

By LOUIS NIZER

German International Business Inflation Must Be Destroyed; Reparations Payments Claims Become Gigantic; Credit Commercial Loans From Other Nations Used by Hitler to Create Great Military Forces.

Chapter VIII.

It is difficult to unravel the complex factors of German scheming, and determine whether the industrial monarchs of Germany contributed more to the Military High Command and more to Germany's emergence from defeat to another attack upon a peace-hungry world. Neither could have acted without the other. The insatiable German lust for world domination pervaded its business losses no less than its military clique.

Inhibition: so the German international "business" infiltrations which, through cartels and control of strategic military materials, constitute an economic fifth column leading to imminent defeat to espionage and sabotage, must be destroyed forever. German good faith must be entirely discounted. The power to practice bad faith must be annihilated.

IN REPARATIONS

To this day, Germany claims that she paid 21,875 million dollars in reparations. At various times even Allied experts accepted this estimate. Actually Germany paid 4,871 million dollars. The difference is accounted for by Dr. Schacht's fraud in treating military losses as if they were reparations. That he valued German colonies lost in the war at 25.5 bil-

lion dollars. He added German also property in the ceded territories, such as railway stations, school buildings, government offices and highways. Germany even included in "reparation payments" the cost of German disarmament, the destruction of German fortresses and the transformation of German industry from war to peace production. Obviously this is a farcical accounting procedure. The losses of the beaten aggressor were claimed to be "reparations". Germany received in loans and credits from the Allies, her "conquers", 6,350 million dollars, a sum far in excess of what she ever paid. Yet during the very period of these loans, while Germany's national income was 77 per cent higher than in 1913, the Allies cancelled 12,100 million dollars of German indebtedness, because of her alleged poverty.

In consideration of these huge cancellations Germany agreed to cease its constant plea for relief and to pay annually \$234,000,000—less than half of the Dawes Plan's "normal" payments. Nevertheless within a year Hindenburg again appealed to President Hoover for relief and a year's moratorium was granted. The next year reparation payments were simply cancelled.

The commercial loans fared no better. Germany received 5,535 million dollars in cash—and Hitler simply kept it. Keep it? Actually these funds were used to build another military machine.

ALLIES DUPED

The Allies were incredibly duped. Due to inflation in 1923, Germany's internal debt became practically non-existent while Great Britain carried an internal debt of 31.5 billion dollars, and France, 30 billion francs. All this apart from some 850 million dol-

"Ach, Fritz, aren't those Americans der souvenir snatchers?"

lars of war debts which these two countries owed to the United States.

The victorious nations suffered under their obligations while the vanquished obtained cancellations, loans and investments with which a new military machine was built.

Two main economic theories of reparation existed after the last war. One was held by the French, who insisted that Germany's failure to pay in gold was due to bad faith and that sufficient pressure would compel the Germans to pay. The other theory, advocated by the English under the guidance of Pro-

YOU'RE IN THE ARMY NOW

After he had his reparations bill at the rate of one billion gold marks a year, increasing to two and a half billion in the fifth year. These payments, however, were to be paid in part in manufactured goods or raw materials.

Germany immediately flooded the world markets with goods. The Allied nations raised their trade barriers to keep out the competing German goods. Germany refused to be thus restrained. She resorted to dumping and similar methods, thereby forcing a further revision in the reparation payments. The Young Plan followed, again substantially reducing Germany's payments, but requiring that they be made in gold, not in merchandise.

Germany accepted the reduction but did not make the required cash payments. Instead, she stopped all payments of industrial and principal on foreign loans, and simultaneously increased her exports by dumping. The currency and gold which she thereby acquired were not used to pay reparations but were used to aid the rearmament program.

It will not be sufficient to destroy the military caste. Another can quickly arise. Germany's capacity to build the tools for another war-machine must be permanently removed. There must be complete industrial disarmament. Perhaps we may call it "dearmament". To confiscate Germany's existing weapons may actually be of advantage to her. The confiscated equipment thus acquired by the United Nations would soon become obsolete, while Germany could plan a newer and more effective arsenal.

The reverse was true when Germany attacked. The democracies, having been caught unprepared, built new arms. When they looked for bombers, fighter planes

Asks Statement On Volunteer Unit

OTTAWA, April 25.—(CP)—Howard Green (P.C., Vancouver South) yesterday asked in the Commons for a statement Tuesday on a dispatch from Vancouver saying that an attempt was being made to raise a volunteer brigade for duty overseas from among drafted troops of the 6th Division.

Air Minister Cawsey replied that he would advise Defence Minister Ralston, who was not in the house yesterday.

It was understood the minister in it should be to the effect: "Mr. Green said:

"I should like to direct a question to the Deputy Chief of National Defence. A Canadian Press dispatch from Vancouver says that an attempt is being made to raise a volunteer brigade from the troops of the 6th Division, which is composed largely of home defence troops, and that this brigade is to be sent to one of the fighting fronts. The Minister of National Defence is out of the house but I would ask that the house may have a statement in regard to this matter Tuesday."

Expansion Plan For I.L.O. Given Setback at Meet

By C. R. BLACKBURN

PHILADELPHIA, April 25.—(CP)—Hopes of those in the international labor organization who wish to see it expand to a super-authority on world policies, were dashed by some of the speakers at yesterday's open meetings of the international labor conference.

Mr. W. H. C. of the American Federation of Labor, United States workers' delegate, said it was not the organization's responsibility to charge against political or economic arrangements, whether by cartel or otherwise. It would then be impossible for German industrialists to establish, through foreign affiliates, an espionage and sabotage organization under the guise of business enterprise. The most dangerous form of the fifth column would be eliminated.

Mr. Wait was one of a number of speakers on resolutions one and two which included the proposal that the conference be given the authority to "scrutinize" national and international policy from the standpoint of the interests of social justice.

Artificial Remedy

Not the least advantage from such a program would be the elimination of the demagogic solution of unemployment—namely, the building of armaments. Dictators have often resorted to this artificial remedy for economic distress. It has served too many of the illegitimate plans such as the creation of a military force to protect their regime and feed on others. In three years under Hitler, German unemployment was reduced from six million to less than a million. In the fourth, 1937, Germany actually imported labor.

If the world's capacity to observe and interpret had not been crippled by a curious sort of self-hypnosis, it would have seen and understood in this simple fact that

Alman at Banff Gets Art Award

OTTAWA, April 25.—(CP)—Sixteen prize-winners from among 700 entries were announced last night in the service-wide art competition sponsored by the R.C.A.F. among artists now on active duty in air force. The prize list includes: A-class, (oil paintings)—second prize, \$50, to S. C. Peter Whyte of Banff, Alta., for "Bush Station, Western Air Command," landscape.

the storm of destruction was approaching.

Over Holidays**

Parading to the Cenotaph to lay a wreath in honor of their comrades who fell at Gallipoli and Suva Bay in 1915, between 300 and 400 Australian and New Zealand aircrew trainees at No. 3 Manning Depot took part in the ceremony at 10:40 a.m.

Tuesday. It was the 29th anniversary of the grey morning when troops of the Australian and New Zealand Army Corps, and British Imperials fought their way ashore in the face of murderous Turkish fire in an attempt to outflank the strategic Dardanelles and force Turkey out

of the war.

Pt. Lt. Minto Swan, padre of No. 3 Manning Depot, conducted the service and gave a brief outline of the history of "Anzac Day". Two minutes silence was observed and a firing party fired three volleys.

The depot band headed the parade and provided music during the service.

P.O. E. C. Siddells of the R.N.Z. A.F. was in command of the parade.

Monty's 'Gospel of Victory' Welcomed Like Sunny Day By Invasion-Tense Britons

By FRANK LOWE

LONDON, April 25.—(CP)—Sir Bernard Montgomery has plunged into his job as Britain's invasion chief with a dash that is somewhat breath-taking, and his first acts appear to be aimed at reinforcing the spirits of the people behind his invasion.

Day in, day out, he has been preaching the victory gospel. This, in a country where even optimism is considered next to blasphemy, combined with the confidence people all have in "Monty" has been welcomed like a sunny day in London.

A few claim they are tired of Sir Bernard's cockiness, his unmitigated self-assurance which they term conceit. But, the vast majority welcome his confidence-filled, flamboyant speeches as harbingers of big things to come.

Often the energetic Montgomery outbursts his official reticence as he dashes from place to place. It is then that he gets a chance to tell the ordinary people of Britain.

The crisp, apt comments he has dropped during such brief meetings have become British by-words, and with each encounter the Montgomery legend grows until it is overshadowed only by the Churchill saga.

Montgomery seems to know what to say to anyone from a clerk to a crowned head. When he met a man shovelling coal in a railroad yard he grasped the fellow's sooty hand, saying, "Keep it up. Your job is more important than mine."

GEN. MONTGOMERY

Sixty Thousand Edmontonians Witness Parade

Continued from Page Nine

One of the most popular features of the parade was the sight of the rebel, Louis Riel, the uniform tunic and blue trousers of the men manning this gun was sharp contrast to the olive and blue uniforms of the army and air force units.

Also making a tremendous hit with the spectators was the naval unit with its youthful mascot manfully striding out with the sailing gun detachment.

The American units were loudly cheered as they marched. Considerable preparation had been given to the composition of the parade from the United States units. Included was a float showing the phases of work being done throughout the northland by highly developed air, sea and land units of the United States Air Force.

EQUIPMENT PARADED
Saucy motor scooters of 150 pounds, 30-ton wrecking trucks capable of lifting a 31,000-pound commando transport plane were on view to demonstrate the quality of American fighting equipment.

Some 22 vehicles of all types appeared in the parade from the United States depots here by kind permission of Col. Eugene Stevens, commanding officer of the American air base at Edmonton.

On display for the first time was the amphibious tank, "the Weasel," a tank adapted for work on land, water or swamp country. This vehicle, which depends on its tracks for traction on land or in the water, carried a full complement of first aid crew and sufficient equipment to deal with any type of emergency in crash work.

His running partner, also in the parade, the "MT" is used as a towing unit when required to pull ambulance trailers, radio cabs for base-to-base contact and was specially developed for work in the northern Canadian bushlands.

Another item in the American display was the largest refueling tender in the world, a 4,000-gallon motor gas tank. Also in the parade were radio-equipped units taken on bush treks, rubber-cleared tank mules for towing aircraft in the hazy areas and smaller equipment.

HEADED BY M.P.s
The United States contingent was headed by the military police, many of them carrying the Thompson sub-machine gun.

The parade, headed by Group Captain R. M. Smith, officer commanding No. 3 "M" depot, R.C.A.F., Lt.-Cmdr. J. A. Dawson, officer commanding H.M.C.S. Nonuch, Lt. Col. E. Brown, M.P., E.D. area

commandant and Col. Eugene Stevens, commanding officer of the U.S. A.A.F. base here, started promptly at 9 p.m.

Immediately following came the veterans of the Great War in the Veterans' Volunteer Reserve, the Red Cross, Canadian Corps Association, and the Canadian Legion. Then came the United States contingent.

Next in the line was the Second Reserve 81 Battery, R.C.A., and next the Royal Canadian Army Cadets. Following came the E Troop Cavalry Squadron.

Other units participating included the 2nd Reserve Battalion, Edmonton Fusiliers; 4th Armored Division; 1st Troop Company, R.C.A.S.C.; 4th Casualty Clearing Station, R.C.A.; No. 10 Field Hygiene section; Canadian Electrical and Mechanical Engineers; 2nd Reserve Battalion, The Royal Canadian Regiment; a detachment of the R.C.A.F. from No. 3 "M" Depot, No. 2 Air Observer School, North West Staging Route, No. 3 "M" Depot, R.C.A.F., and No. 4 Initial Training School, R.C.A.F.

Group Captain John Blythel was parade marshal.

Disclose Mutiny By Greek Troops

By RICHARD G. MASSCO

CAIRO, April 25.—(AP)—A mutiny by a brigade of Greek troops which for three weeks had refused to obey their commander-in-chief's orders because of "organized subversive political elements" ended yesterday when the troops "laid down their arms and vacated their camp," an official announcement said last night.

This disclosure of political troubles among Greek troops came just a day after the revelation Greek forces loyal to Premier Sophocles Venizelos' government in Cairo had put down by force a mutiny aboard three Greek warships in Alexandria harbor whose crews had refused for two weeks to obey orders directing them to sail on convoy and mine-sweeping duties.

The latest announcement on the mutinous brigade did not disclose details leading to the breaking of the mutiny by the brigade.

U.S. Soon to Have 100 Plane Carriers

NEW YORK, April 25.—(AP)—

Rear Admiral Dewitt C. Ramsey, chief of the United States Navy Bureau of Aeronautics, said yesterday the navy would have more than 100 aircraft carriers by the end of this year and would concentrate them in being overwhelming air power against important island objectives in the Pacific.

"It is my personal conviction the navy's air arm will continue to spearhead the westward drive in the Pacific," he told the annual luncheon of the Associated Press.

Kiwanis Clubs Mark Canadian, U.S. Friendship

This week, April 23 to 25, marks the 17th anniversary of the Rush-Bornet agreement between the United States and Canada, "one of the oldest inviolate treaties of friendship in the world," the Edmonton Kiwanis club announced Monday.

In celebration of the great friendship between the two nations of North America, the 2,200 clubs of Kiwanis International in the United States and Canada are observing this week as "United States-Canada Good Will Week."

GREETINGS RECEIVED
Greetings have been received from Prime Minister Mackenzie King and President Franklin D. Roosevelt, in which the leaders of both nations paid tribute to the work of Kiwanis International and to the goodwill between their respective nations.

"Our long unbroken friendship, our generations of living good neighbors, each country preserving its own national identity, have often been cited as proof that peaceful relations can exist peacefully side by side," President Roosevelt said.

"But unless we focus our attention on this unusual amity," he continued, "we are apt to take it as established naval law, as familiar and unremarked as Newton's law of falling bodies. It is not our natural law. Our good relations are almost without parallel in recorded history."

"Our good will," the United States president concluded "is not a negative mutual deference, but positive liking, admiration, and trust of each other."

EXPRESS APPRECIATION
Prime Minister King pointed out in his greetings that "the celebration by Kiwanis International of a Canadian Good Will Week provides an opportunity for expressing appreciation of the constant work which is being done to strengthen and enhance the friendship and good will which have been shared so long and so happily by the people of the United States and Canada."

"Especially during the years of war," the Prime Minister concluded, "the sense of cooperation which has animated the efforts of

neighbors, each country preserving its own national identity, have often been cited as proof that peaceful relations can exist peacefully side by side," President Roosevelt said.

Civilian Internees Freed When Held Not "Dangerous"

OTTAWA, April 25.—(CP)—Civilian internees in Canadian internment camps are released when "thorough" investigation has shown that they are no longer likely to be a danger to the state, a justice department official said yesterday.

He made that statement to The Canadian Press when asked whether the department was prepared to explain why Joseph Parr and John Lorrimer, both of Toronto, were released from internment some time ago.

The policy of the justice department was not to reveal why certain persons were interned or why they were released, said the official.

"All nations, has added new lustre to our common heritage of free government and free institutions."

"The fullest collaboration, until victory over the Axis powers has been won, will be but a prelude to the tremendous tasks of building peace, and with peace, freedom and a better life for races and peoples and nations throughout the world," he said.

Australia Said In War to Limit

WASHINGTON, April 25.—(AP)—Australia is in the war to the very limit, Prime Minister Curtin said yesterday.

"I come here on my way to London with but one message and one request for our Allies," he said. "That request is to carry on."

Curtin said the purpose of his visit is to confer with the President, adding that he hoped to exchange views both on the state of the war and "on the legacies of which in the nature of things this war will leave."

Asked about the question of post-war bases in the Pacific, Curtin replied that he assumed the intergovernmental referred to bases which before the war had been under Australian or New Zealand control.

"No one has asked that any of these bases be under other than our jurisdiction after the war," he said. "We are not asking that the jurisdiction of any other Allied bases be changed."

Since 1919 more than one-third of the population of Britain has been reborn.

Ralston Cautions Against Thinking The War Is Won

SUDBURY, Ont., April 25.—(CP)—Defence Minister Ralston, speaking at a combined service club Sixth Victory Loan inaugural dinner here last night said "some good news has been reaching us lately" but don't let anybody, any type of propaganda or reasoning, delude us into thinking the war is won.

"We have only just begun to win," he said. "There would be a long, hard, bitter, costly struggle before the enemies of mankind were forced to unconditional surrender."

"We are fighting two desperate enemies, the Germans and the Japs with their backs to the wall, but with loaded guns in each hand and plenty of ammunition for a long time yet."

Highway Worker Killed by Truck
CALGARY, April 25.—(CP)—Fred Samagaski, 31, Ukrainian bachelor of Acme maintenance gang employee of the provincial public works department, was fatally injured on the highway at

Second Garden Article by City Woman Published

Mrs. J. A. McAfee, well known in the city for her fair-like garden at 11200 82 street, and winner of a number of horticultural awards, has scored another triumph. She has had a second article on gardening published in a Canadian magazine. Entitled "Spring Fever," Allment of Gardeners, it was published in the April issue of the Canadian Horticultural Magazine at Oshawa, Ont. Mrs. McAfee has already received congratulations on her article, and many people have expressed the desire to obtain a copy of the magazine. A short time ago she had the pleasure of seeing in print her first magazine story about spring gardening.

Krems, yesterday. He was engaged as a helper on a truck operated by F. Hambley, Beiseker, and he was helping dump a load of gravel when he slipped and fell beneath the truck wheels.

Boy, am I broke!

"I've just made a grand discovery . . . how to be happy though broke!"

"You see, I have a son right in the thick of it. He's my only boy, and . . . well, never mind that."

"So when they asked me to buy Victory Bonds, I always came through . . . somehow . . . although it meant doing without some things until the war is over."

"But this time I figured I simply couldn't buy another bond. I just simply couldn't."

"And then I realized that about all a fellow gets out of life is what he thinks of himself. So I asked myself what kind of a man I'd really like to be? It was different from then on."

"Now I've arranged to buy more bonds than ever before out of my savings. And I've agreed with the Victory Loan salesman to pay for additional bonds through the monthly savings plan. And am I BROKE! And HAPPY!"

"And you'll be happy, too, when you take every single dollar you can find and buy Victory Bonds. You'll be the kind of fellow you like to know!"

"Too bad, Pats! Just a minute—I'll come out and give you a hand!"

CPA Employees Get Behind Victory Loan

Canadians Pacific Air Lines' stewardesses were right on the job selling Victory Bonds in CPA's No. 2 hangar not five minutes after a meeting of employees on the opening day of the Sixth Victory Loan campaign. Seated at the table, taking subscriptions from CPA employees, are Stewardesses Marie Richardson (nearest camera) and Millie Dunbar. The meeting was addressed by W. M. Neal, senior vice-president of the Canadian Pacific Railway from his office in Montreal, who urged

full support of the loan by employees over the entire system. Other speakers were R. W. Ryan, general superintendent, CPA Western Lines; R. V. Price, provincial vice-chairman, payroll savings section, National Finance Committee; and Surgeon-Lieutenant McElchie, R.C.N. The movie picture, "Target Berlin", was also shown. The CPA Western Lines quota for the Sixth Victory Loan is \$90,000. The quota for employees based in Edmonton is \$40,000.

Dominion Says Coal Problem Is Transport

The Dominion government has stated its greatest problem in connection with the coal industry is one of transportation. Hon. N. E. Tanner, minister of lands and mines for this province, said Tuesday on his return from Ottawa.

Mr. Tanner headed a delegation which recently interviewed members of the Dominion cabinet on the present coal crisis in Alberta. On the delegation were C. Stubbs, Western Canada Bituminous Coal Operators' Association; G. T. Richards, Domestic Coal Operators' Association; A. J. Morrison, M.L.A., secretary, Alberta Coal and Lignite Workers of America; and J. Stokluk, vice-president, District 18, U.M.W.A.

"The Dominion said it cannot get cars to carry coal," Mr. Tanner said, speaking of his delegation's interview with the senior government. While Ottawa would like to see as much as a million tons of western coal shipped east, transportation problems stand in the way, and a similar situation exists in regard to wheat.

The delegation was told plans are being forwarded for setting up of a Royal Commission to enquire into the coal situation in Canada. It asked that representation of a representative who has intimate knowledge of the situation, where commissioners are appointed. As yet, it is not known how many will be named to the commission, Mr. Tanner stated.

Meeting the Alberta representatives were Hon. T. A. Crear, minister of mines and resources; Hon. J. E. McDonald, minister of fisheries; James A. MacKinnon, minister of trade and commerce; and Hon. C. D. Howe, minister of munitions and supply, as well as Col. J. W. P. J. Brunning, and two advisers to the coal controller.

PREMIER ASSESSMENT

It was regrettable the Prime Minister found it impossible to attend the meeting, Mr. Tanner declared, saying the delegation had purposely arranged its meeting date to fit in with Premier King's wishes and had once postponed the date. After submission of the brief, three members of the delegation stayed in the east to confer with local administrative officials, and discuss the situation further. Those remaining were Mr. Stubbs, Mr. Richards and Mr. Morrison.

The delegation was appointed by the minister of the last session of the Legislature, and was instructed to urge at Ottawa the immediate implementation of a national coal policy for Canada.

Brothers Serving

PO. MALCOLM MCILLAN

Above are the two arms sons of Mr. and Mrs. Maxwell McMillan of 1227 122 Street, P.O. Malcolm McMillan has been commissioned as a pilot officer. He was educated at Calver Public and Technical High schools. He enlisted in the R.C.A.F. Dec. 2, 1941 and received his training at Regina, Victoria and later was graduated as a sergeant-pilot at Yorkton, P.E.I. Sgt. Lorne McMillan has arrived at Ottawa after service overseas. He was educated at Calver Public and Technical High schools, and joined the R.C.A.F. in 1942 and after training at Yorkton, P.E.I. he is now serving overseas with the R.C.A.F. as a pilot officer.

British Govt. Is Disturbed By Living Costs

By JOSEPH W. GRIGG

Excerpted from the Edmonton Bulletin Copyright, 1944, by British United Press

LONDON, April 25.—In a sombre speech lasting an hour and 48 minutes, the chancellor of the exchequer, Sir John Anderson, told the House of Commons today that in the invasion year, the United Kingdom will spend \$537,000,000 pounds (\$718,000,000 U.S.) on war—the highest figure in the nation's history.

In submitting a six-billion pound budget for the year ahead, the chancellor said the government was "disturbed" by the mounting cost of living and warned that grave dangers loomed ahead if the tendency toward a general upward movement is not kept in check.

Anderson said the United Kingdom faced a real danger of inflation if the government policy of subsidies to stabilize the cost of living is not continued.

He disclosed that as a result of heavy subsidies, the cost of living so far had been held to 29 per cent over the pre-war level compared to the 50 per cent, over which it might otherwise have jumped.

TO MAINTAIN POLICY

The Chancellor admitted, however, that the government was having difficulty in keeping it within bounds and he announced he had been obliged to fix the index within a range of 30 to 35 per cent over the pre-war level instead of from 25 to 30 per cent, above which has been the previous objective.

"It is the firm intention of the government to maintain this policy so long as they have the co-operation of all sections of the people," he told the House.

External finance will become an increasingly important problem as the war comes to a close, Anderson said, in paying high tribute to financial contributions from Canada and assistance derived from American lend-lease.

PRIDE FOR CANADA

"The Canadian government," he said, "during the last two years made a most magnificent contribution—first, a billion dollars gift to us, and last year a corresponding gift to the United Nations. The Canadians will again make another contribution to the war effort of the United Nations this year on a similar line."

Anderson said that before lending began to export goods to Britain had used up one billion pounds in assets and undischarged overseas liabilities amounted to two billion pounds.

"We are not yet at the end of this tale," he said. "We have parted with all this, not in neutrals, but some 90 per cent to our allies and associates, most of whom will emerge from this war with their overseas financial position greatly strengthened as a result of it, just as ours is greatly weakened."

"I make no complaint of this. We are all in this war with all we have got."

\$11,900,000 Provided

Auxiliary Services

OTTAWA, April 25.—(CP)—The Services Minister LaFleur in the Commons yesterday gave a breakdown of a total of about \$11,900,000 provided to auxiliary services by his department in 1942. The following amounts were given out: Canadian Legion, \$2,300,000; Knights of Columbus, \$1,200,000; Salvation Army, \$1,900,000; Y.M.C.A., \$4,000,000; Y.W.C.A., \$2,000,000; Navy League, \$300,000.

Before the New Permits Magistrate For Parcels To Prisoners

Arrangements have been made for special permits to be granted to allow certain shipments to prisoners of war not previously permitted, according to an announcement made by the Canadian Prisoner of War Relief Association in all countries.

At the present time the postal censor will permit the sending of gift parcels by anyone personally addressed to a prisoner of war. These may be delivered and sent only through firms holding a special permit. Many Edmonton firms hold these permits.

EMPIRE-WIDE

There are Prisoner of War Relief Associations in all countries in the British Empire. The Canadian group has its headquarters in Montreal with 20 branches across the Dominion. The organization works in co-operation with the Red Cross.

The Alberta branch of the association announces the following donations which will be used for the welfare of prisoners: Mrs. Waterworth of Banff, \$10; Mrs. Cook, Brightview, \$5; The Glenora Station and Tennis Club, \$20; Mrs. A. R. McFadden, Sprague, \$5; Mrs. H. P. Craig, Edmonton, \$5; Mrs. G. R. Burroughs, Edmonton, \$10; The Lyric Musical Club of Edmonton, \$10; other donations, \$10.

Made 46 Trips Without Mishaps

FLT-LT. Peter Wilby, D.F.C., 21 years old, of Jasper, who is now stationed at No. 8 Bombing and Gunnery school at Lethbridge, has just received the Distinguished Flying Cross last year after completing 50 operational trips. He also has several other service ribbons.

He received the operational wing and bar, for completing the two tours of operations. These awards were presented at Lethbridge, recently.

About piloting Lancaster bombers over Germany, the officer said, "I enjoyed the bombing trip, though at all times I was as scared as everyone else."

Another of the officer's ribbons is the 3rd star, awarded him for being on operations during those years.

FLT-LT. Wilby is completing his fourth year in the air force. He was graduated as a pilot at Saskatoon, and then went overseas where he was attached to the R.A.F. He was posted back in Canada as an instructor.

50 Children Face Loss of Housing

Approximately 50 children in 22 families registered with the Edmonton Accommodation Bureau face the possibility of being homeless by May 1, Mrs. Marguerite Fielding, director of the bureau disclosed Tuesday.

And these cases, she said, are "desperate," which have been on file for some months but which will become the end of the month.

Practically all of these particular cases, she said, are resident families of the city, with many of them families of service men now overseas.

Mrs. Fielding cited one particular case of a mother of five children who is expecting another child soon and whose husband is in the armed forces.

Participating the present number to increase rapidly by the end of the month, Mrs. Fielding urged householders in the city, if possible, to consider sharing their houses with these families.

101 Nippon Planes Battered in Attack

PEARL HARBOR, T.H., April 25.—(AP)—Planes from navy carrier USS Yorktown, the Navy's new Guinea invasion destroyed 101 Japanese planes and sank two small ships. Several Japanese planes and one ship were destroyed on the ground and 17 damaged.

Sixty-seven Japanese planes were destroyed in a commentary on the Admiral Nimitz said in a press release.

Jewish Population In Poland Is Cut To Barely 50,000

WASHINGTON, April 25.—(AP)—From the Polish underground has come a grim document supporting to show how the German occupation policy has reduced Poland's Jewish population from 3,500,000 to barely 50,000. The report, written shortly after a series of "liquidations" in Poland, and released by the war refugee board, said: "Last month (October) we estimated that there were only between 200,000 and 300,000 Jews left in Poland. It is our opinion that in a few weeks there will remain about 50,000."

Maps Are Again Seized by Sweden

STOCKHOLM, April 25.—(AP)—Several thousand German large scale maps of the whole of Scandinavia were confiscated by Swedish customs agents yesterday when a ferry arrived from Samsat, Germany.

The maps were the second such seizure in a week. The maps are being examined by Swedish military authorities.

Radium costs nearly \$30,000 a gram.

Active Army Units In Loan Parade

Among the units drawing the most favorable attention in the Victory Loan parade of Monday were those representing the Active Army Corps, No. 13 Vocational Training School.

In addition, the band stationed in front of the parade headquarters at 101 street was contributed by the Active Army. The band of the Red Deer Training Centre, Royal Canadian Army Service Corps and played the regimental marches of various units as they passed the sailing base.

Man Collapses

J. E. Sweet, Laidla, a visitor to the city, was rushed to University hospital in a Smith ambulance, Tuesday, after he had collapsed suddenly near the Hudson's Bay Company store at Jasper avenue and 102 street. His condition was described by hospital authorities as "fair."

Club Meeting

Members of the Cosmopolitan Club at their regular weekly luncheon meeting at the Coronada Monday, April 24, discussed the "Headlines." Bill Dwyer, of the Journal editorial staff members, presided at the luncheon. Mr. Dwyer, describing old newspaper headlines, H. P. Brown, who presented the film, presided at the luncheon in the absence of C. O. Tanney, the president.

Boat Missing

A 14-foot boat, missing by Jim Foster, 2622 101 street, disappeared from the river bank near 100 street some time Sunday night, according to police. The craft, which was painted red, was believed to have been taken by some youths playing in the vicinity.

Star Aids Loan

WINNIPEG, April 25.—(CP)—Gall Patrick, Hollywood film star, appeared in a Canadian radio broadcast at a noon mass meeting here yesterday in connection with the Sixth Victory Loan.

"I'd like to exchange this parachute!"

Asks Peace Prayers

LONDON, April 25.—(CP)—The Pope in a letter to Cardinal Maglione, papal secretary of state, has appealed to Catholics to pray for peace during Mass.

The letter, which in Italian Catholics make pray for the intervention of the Virgin Mary.
